Dear Sunil,

Here are my comments on the copyright form:

- In the "Authors" field, can the names of the authors be first name followed by last name. Your sample has last name followed by first name. The names should be presented in the same format as they appear in the author line below the title of the article in the page proof.
- The "Corresponding author's contact data" is incomplete. The state and zip code are missing. Can this field match the text from "Address for correspondence" in the page proof.
- The "Contact at the publishers" should be the name and e-mail of the production editor for that journal.
- The live links in the PDF file do not all work properly (please refer to original PDF sent).
- The complete author packet should still include the opening page "Instructions to Contributors" followed by the copyright form, then the Offprint form.

Regards,  
David
