Dear Neeraj,

David is already frustrated with poor automation of sending the complimentary PDFs for articles released at e-First and FIZ. Three complains are already received in this regard.

Any delay on setting up "copyright transfer agreement" will further devastate the problem.

Please confirm. We need to do this quickly and with accuracy.

Arshad

Dear David,

Good morning.

As per the discussion with Arshad. Please find attached new separate CTA form for your review.

The CTA form attached is separate from the author packet. Instead of merging the same with Instructions to Contributors, Offrprint Order form, and the article we kept it separate as the Digital signature section link gets deactivated while merging them altogether. Although, all the links of different sections are working fine.

Please advise.

Best regards,

Joseph

Dear Sunil,

Here are my comments on the copyright form:

- In the "Authors" field, can the names of the authors be first name followed by last name. Your sample has last name followed by first name. The names should be presented in the same format as they appear in the author line below the title of the article in the page proof.
- The "Corresponding author's contact data" is incomplete. The state and zip code are missing. Can this field match the text from "Address for correspondence" in the page proof.
- The "Contact at the publishers" should be the name and e-mail of the production editor for that journal.
- The live links in the PDF file do not all work properly (please refer to original PDF sent).
- The complete author packet should still include the opening page "Instructions to Contributors" followed by the copyright form, then the Offprint form.

David

Subject Meeting with Thieme

Dear Sunil/Arshad,

I had a meeting with David today. Please see meeting points below:

GSI Abstract issues to PibMed Central – We have to send processed files to David not to Thieme connect. Also insert DTD declaration in first line of XML.

Thieme Germany has similar kind of project and Maja would be sending it for estimate (we have to provide the same cost). There are 2000+ abstracts. But we need to finish GSI first.

File naming convention for Thieme connect. I hope you got an e-mail from Maja on this. Please David know your understandings on this request.

JNLS-B cover: The printer was able to convert 6th color (PMS image) to CMYK. David was asking me why TD can't do it. Please check with our Repro house for any possible solution.

DOI numbers for back issues: We have to provide this data from January 2013 to till date.

Complimentary PDF e-mail text will come from David

New copyright forms: In the sample you send lot of features are not working (e.g. no links are active, Open accesses link, check box etc.). all the links, signature files etc. has to be work same way it is working the PDF David supplied. Please send a new sample to me before it goes to David.

In the author pack all other pages are same and it has to go along with proofs but only replace the copy right forms.

Do not implement new copyright forms until you get a go ahead from David.

Please call me and I need to explain it in more detail.

Thanks,

Joseph
